

MagnaDrive™ Exhibits at the Hannover Fair, April 13-17.

WOODINVILLE, Washington, March 30, 2015 – MagnaDrive will be exhibiting its groundbreaking technology at the Hannover Fair this April 13-17.

Come see MagnaDrive at: Booth D01-1, Hall 25 “Motion, Drives and Automation”

Located in Hannover, Germany, the Hannover Messe is the world’s largest industrial trade fair showcasing a range of innovations from process automation to energy conservation. “MagnaDrive is proud to be a part of this event and this year we’re presenting non-contact power transmission products covering applications from 1kW to 2.5MW,” commented Paul Humphreys, Vice President, Sales and Marketing, adding, “in particular, we’re displaying products used with both constant speed and variable speed loads that can offer energy savings up to 50%.”

“Beyond energy savings MagnaDrive’s patented technology has the ability to minimize maintenance, significantly extending equipment life. This has become a cornerstone of the company’s value proposition.” Humphreys added, “We’re also very excited to meet both existing and new customers, and connect with our growing number of European distribution partners at this event.”

From humble beginnings as a Seattle, Washington, startup founded in 1999 MagnaDrive has grown rapidly, now boasting a global distribution network serving thousands of customers from virtually every conceivable industrial market.

About MagnaDrive Corporation

Founded in 1999, in Seattle Washington MagnaDrive’s groundbreaking magnetic torque-transfer couplings and speed drives provide highly effective means of protecting critical equipment and processes. Beyond the mechanical benefits of MagnaDrive’s technology, also has the ability to achieve significant energy savings. MagnaDrive serves multiple markets, around the world including power generation, mining, oil and gas, maritime, the U.S. Navy, water and wastewater, HVAC, and general manufacturing.
