

## **MagnaDrive Launches New Website**

WOODINVILLE, Washington, 10/31/14 – MagnaDrive is pleased to announce the launch of its new website.

“The goal of the new site is to continue emphasizing the scope and uniqueness of our ground breaking technology” said Paul Humphreys, VP Sales & Marketing, “while at the same time, providing further insight into just how many markets and applications MagnaDrive’s services for it’s global customer base.” Continuing, “2015 is shaping up to be another break out year for the company, with a host of products being launched that will greatly expand our addressable markets, especially for smaller motors and pumps and we’re excited to use the website as a key platform to support launch efforts.”

### **About MagnaDrive Corporation**

Founded in 1999, in Seattle Washington MagnaDrive’s groundbreaking magnetic torque-transfer couplings and drive technology provide highly effective means of protecting and controlling critical equipment and processes for a range of industrial and commercial applications. Beyond the mechanical benefits of MagnaDrive’s technology, it also has the ability to achieve significant energy savings. MagnaDrive serves many markets, around the world including power generation, mining, oil and gas, maritime, the U.S. Navy, water and wastewater, HVAC, and general manufacturing.
